Deepmind & DWS Scholarship program : scholars experience

The Data and Web Science (DWS) MSc Programme at the School of Informatics, Aristotle University, proudly disseminates the outcomes of the full MSc scholarships program, funded by DeepMind, a pioneer in Artificial Intelligence research and its application to the real world !

The DeepMind scholarship program was launched at Aristotle University in October 2020 and has offered tremendous opportunities to 6 scholars up to now, who have gained unique experiences, DeepMind mentoring, and the chance to connect with an international community of peers. DWS students and the wider Faculty community had the opportunity to open their scientific horizons thanks to synergy with DeepMind scientists !

This event will highlight the experiences of the academic years 2021-22 and 2022-23 **Deepmind & DWS Scholars** as next :

8:30-8:40 pm : DWS & Deepmind synergy intro
          by prof. Anastasios Gounaris & prof. Athena Vakali

8:40-8:55 pm: 2021-22 scholar Marios Kadriu: "*Fine-grained Semantic Indexing of Biomedical Literature*"

8:55-9:10 pm: 2021-22 scholar Vasiliki Parousidou: "*Personalized Machine Learning Benchmarking for Stress Detection*"

9:10-9:20 pm: 2022-23 current scholars Eleonwra Stoikopoulou & Michalis Charatzoglou : "*The Impact of Mentorship Experiences and Skills Development Plans*"

9:20-9:30 pm : Closing remarks – Q&A
